

BIO PENS

PROMUOVI IL TUO BRAND IN MODO SOSTENIBILE.

Prodotto da materie prime rinnovabili e biobased. Le penne a sfera per la tua presentazione del marchio rispettosa dell'ambiente.

SENATOR BIO PLASTICS

Perché bioplastica?

Le plastiche a base biologica possono aiutare a ridurre la CO₂ emissioni e conservare risorse limitate.

Che materiale utilizziamo?

Usiamo un PLA basato su risorse rinnovabili per i nostri prodotti bio.

Il nostro PLA è prodotto con canna da zucchero. Una delle materie prime più efficienti per la produzione di PLA.

Come produciamo?

Produciamo a Groß-Bieberau vicino a Francoforte. L'intera produzione è gestita con elettricità verde ed è impostata secondo i processi dello standard ambientale 14001.

Quali sono i vostri vantaggi?

Articoli promozionali di alta qualità e sostenibili che rimangono in uso per lungo tempo, posizionando in modo permanente il tuo messaggio pubblicitario con il tuo gruppo target e creando un'immagine positiva.

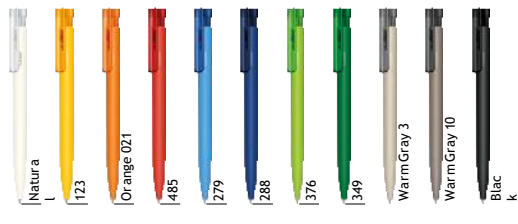

Sapevi che...?

La plastica a base biologica proveniente dalle piante non è in alcun modo in concorrenza con la produzione di alimenti. La superficie agricola richiesta è molto piccola rispetto ai mangimi e agli alimenti

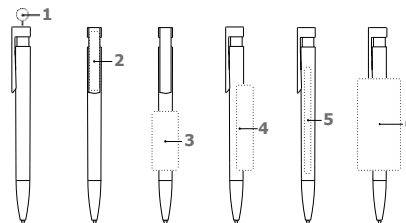

e tale rimarrà, anche con un utilizzo significativamente maggiore di bioplastiche.

LIBERTY BIO

SENATOR® RECYCLED PENS

**OUR
GREEN
SUPER
HEROES.**

If sustainability is just as important to you as good design, then the three senator® Recycled Pens are the models of your choice: made from recycled material and produced in Germany with CO₂-neutral green electricity.

senator®
Made in Germany. Since 1920.

SENATOR® RECYCLED PENS

Sustainable production

- Our production is located in the heart of Europe. This means short distances on the way to your customers.
- We produce exclusively with CO₂-neutral green electricity from hydropower and pay attention everywhere to a careful handling with our resources.

Recycling material used

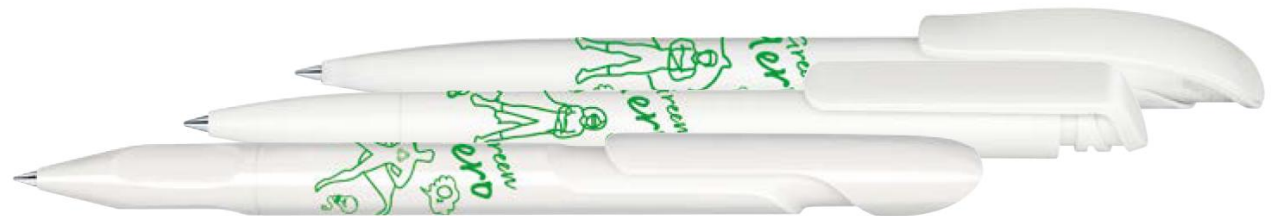

- We use an ABS recompond based on >95% recycled material.
- This means reusing industrial production remnants and waste, returns and everyday products.

Durability

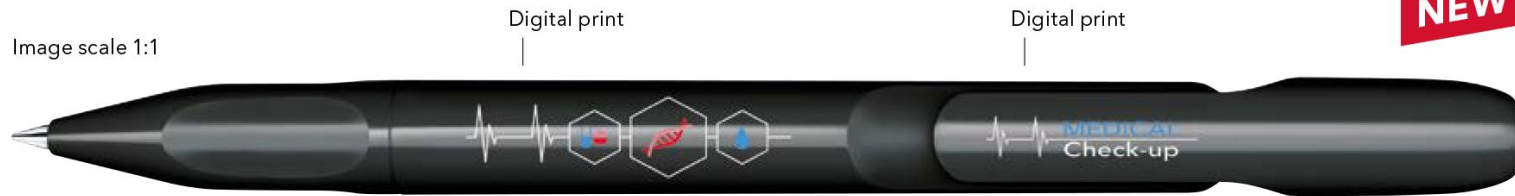

- We attach the highest importance to the use of first-class materials and high-quality processing.
- Our branding also meets high quality requirements: high colour brilliance, sharp-edged prints, long durability.

senator® Magic Flow refills

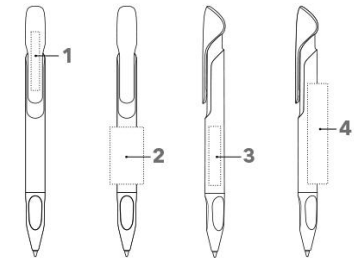

- Our refill offers up to 5,000 m of writing comfort. Without smearing or scratching, document-proof!
- Once it is empty, you can get a free replacement at refills.senator.com
